

## Natural Resources and Economy of Australia

### ACTIVITY:

Use the Chart of Major Primary Industries to answer the following questions.

Chart of Major Primary Industries							
	Queensland	New South Wales	Victoria	South Australia	Tasmania	Western Australia	Northern Territory
cattle	3					2	3
sheep	1	1	1	1	1	4	
fossil fuels	1	1	1	1		1	2
mineral mining	1	2		1	1	2	1
wheat/grains		2	1	1		2	
fruit/vegetables		1	1	1	1	1	
sugar cane	3						
dairy products	1	1					
fishing	1	1	1	1	1	1	
lumber	1	1			1		
coal	2	2	1				
oil & natural gas	1		1	1		1	2
bauxite	2					1	1
uranium	1			1			3
gold	1					3	1
iron ore				1	1	4	
copper		1	1	2	1	1	

- In which place is uranium mining most important? \_\_\_\_\_
- Most gold mining occurs in what state? \_\_\_\_\_
- In what state does the most sheep ranching occur? \_\_\_\_\_
- Name the only state that has major sugar cane production. \_\_\_\_\_
- In what state does the most iron ore mining occur? \_\_\_\_\_
- In what two places is copper mining NOT a major activity?  
 \_\_\_\_\_
- In which 3 regions is cattle farming most important?  
 \_\_\_\_\_
- In which 3 regions is bauxite mining most important?  
 \_\_\_\_\_
